

Peer2Profit registration, usage and withdrawal guide

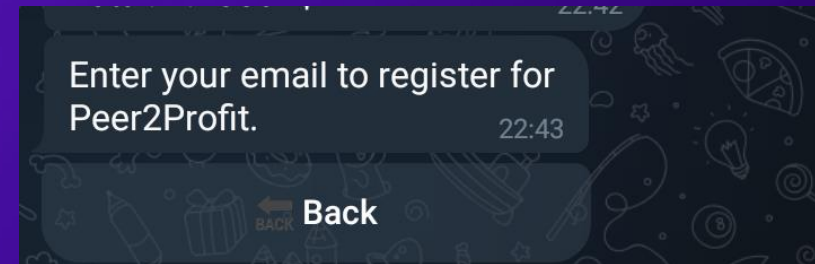

Bonus section at the end!

Registration

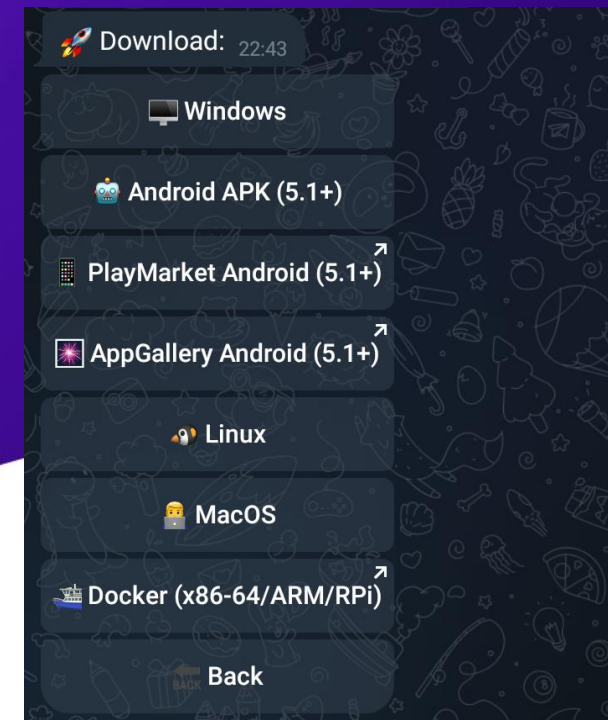

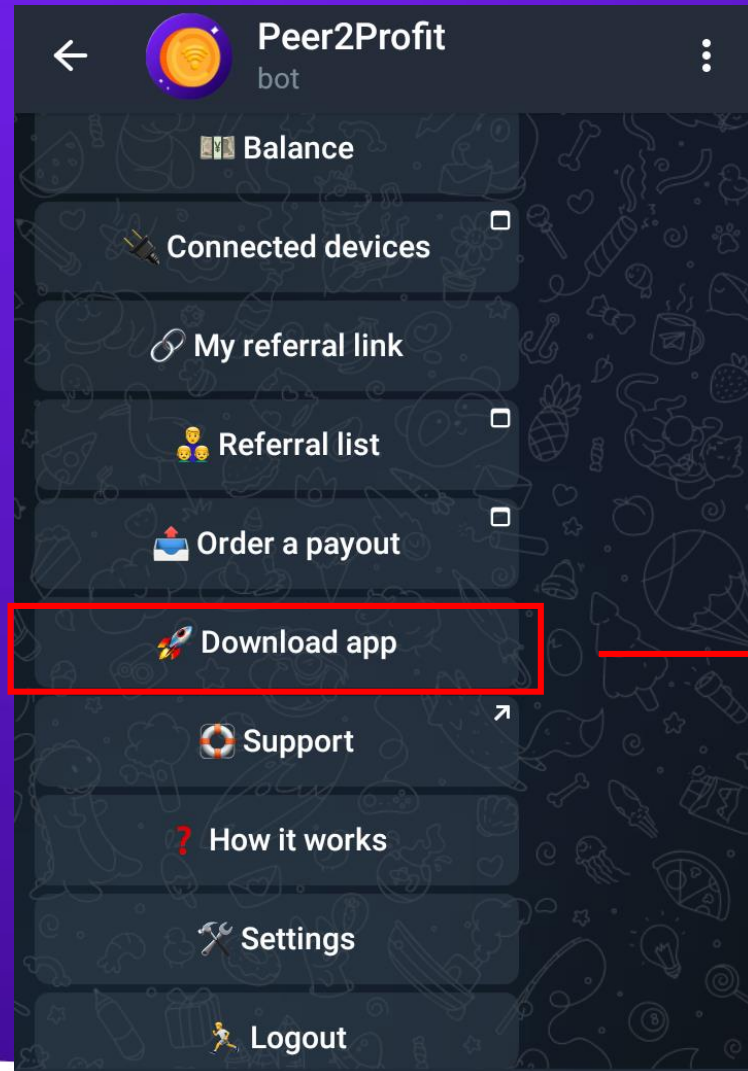

You can register on Peer2Profit through their Telegram bot by [clicking here](#)

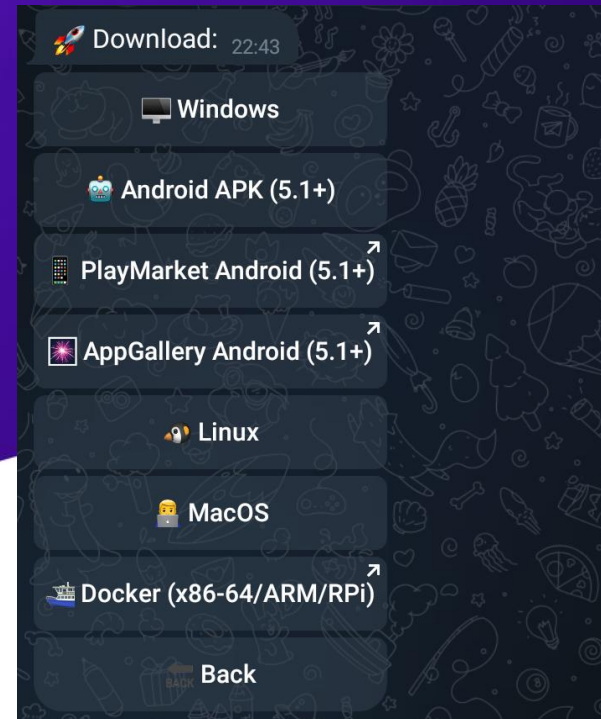

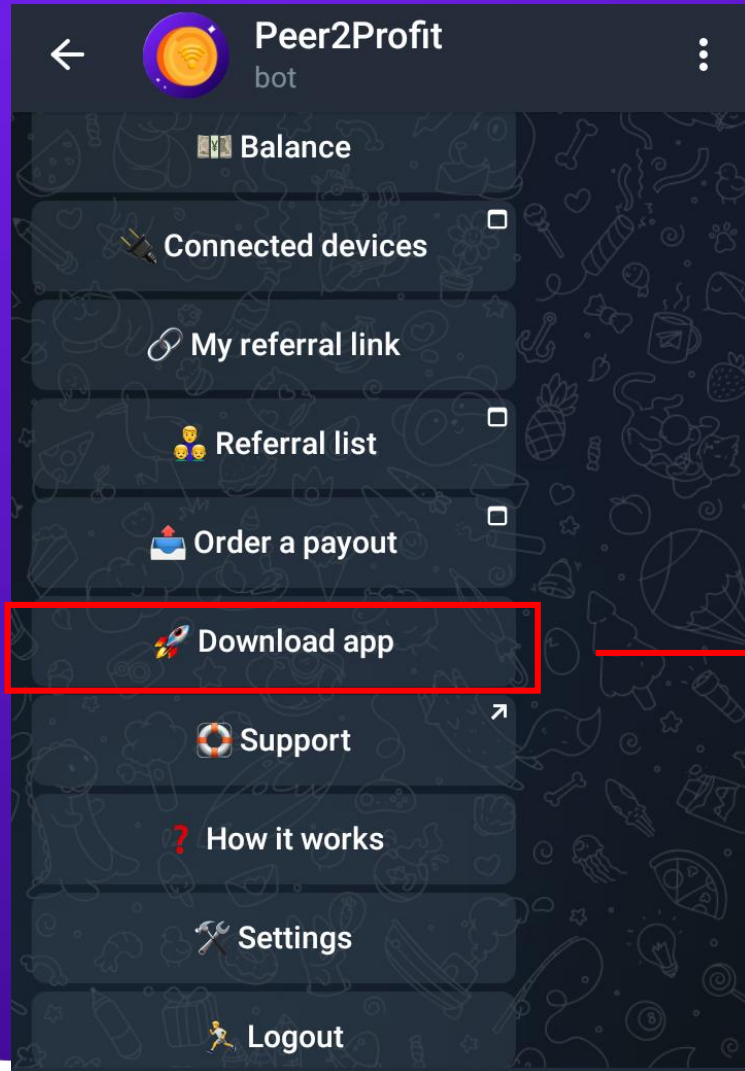

Once you open the bot, choose "Register" from the bot menu and choose an email and a password

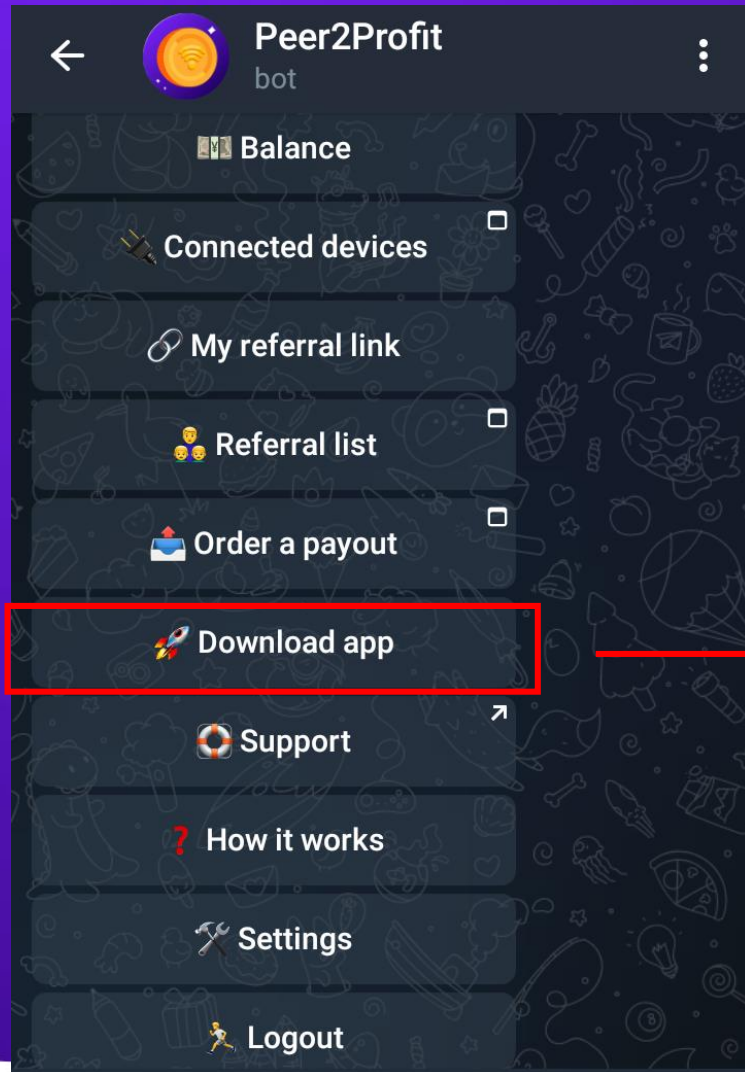

Once you registered, login and click "Download app" from the main menu to download the proper Peer2Profit application for your device.

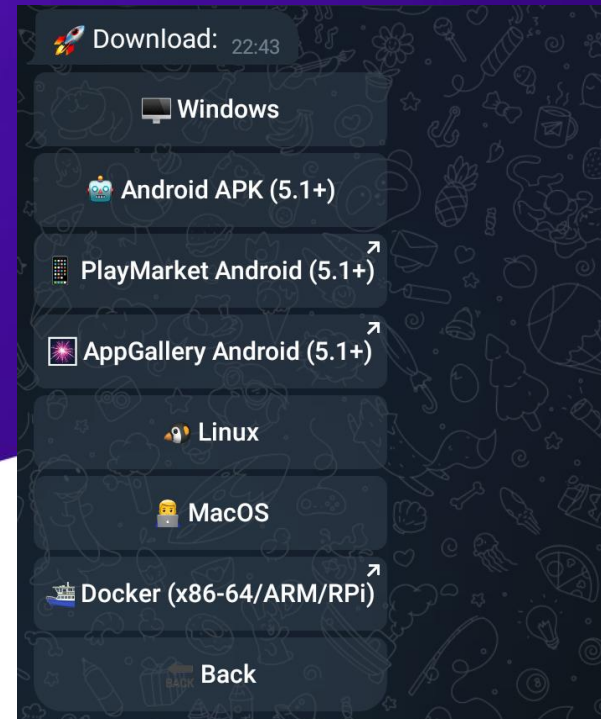

Once installed, open the app, enter email and password, and activate it

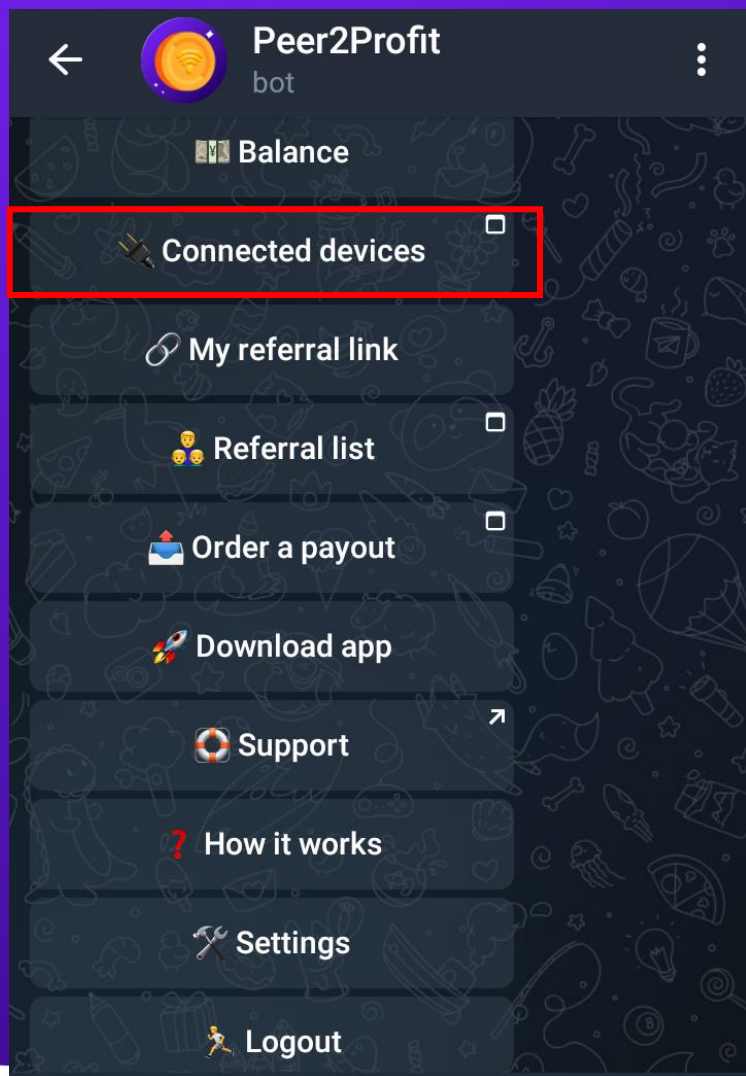

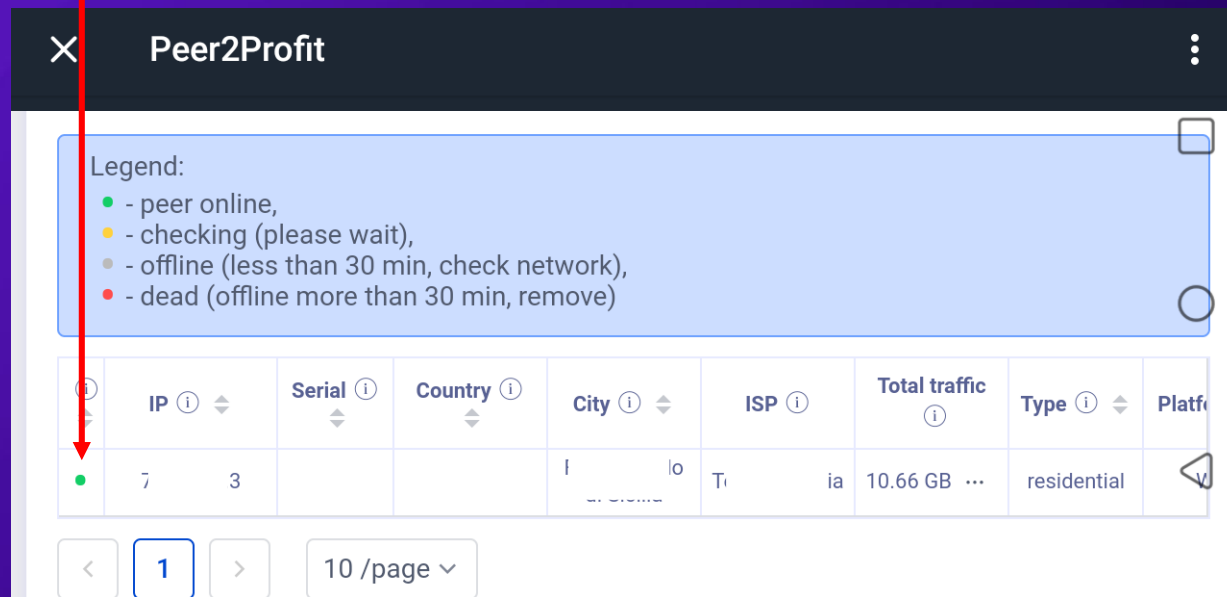

Note

You can add more than one device to get even more revenue!

By clicking on "Connected devices" you can check the status of your devices. The **green dot** next to the IP column indicates your app is generating revenue. Scroll the table to get more informations.

Support

The control panel starts to work ONLY in the Telegram bot. In order not to lose access to the platform, log in to our bot: https://t.me/peer2profit_app_bot Just click on this link! Do not use the search in Telegram, so as not to get on fake accounts! Otherwise, you may lose access to our platform!

Expected income from one device is about \$2 to \$15 per month, depending on location (country, city, network type). Connect more devices using different ISP and invite more referrals to increase your income!

Withdrawal

To withdraw your funds, click on "Order a payout".

Withdrawal

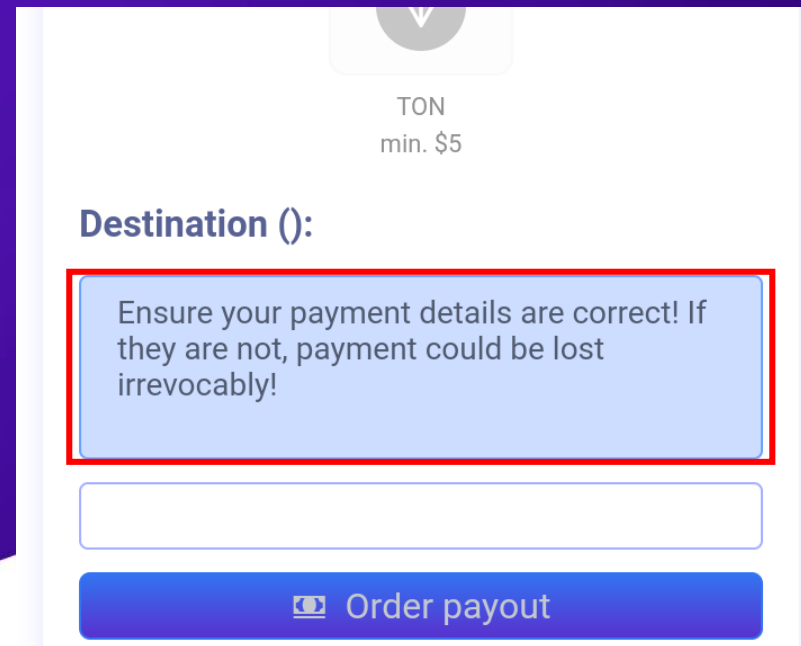

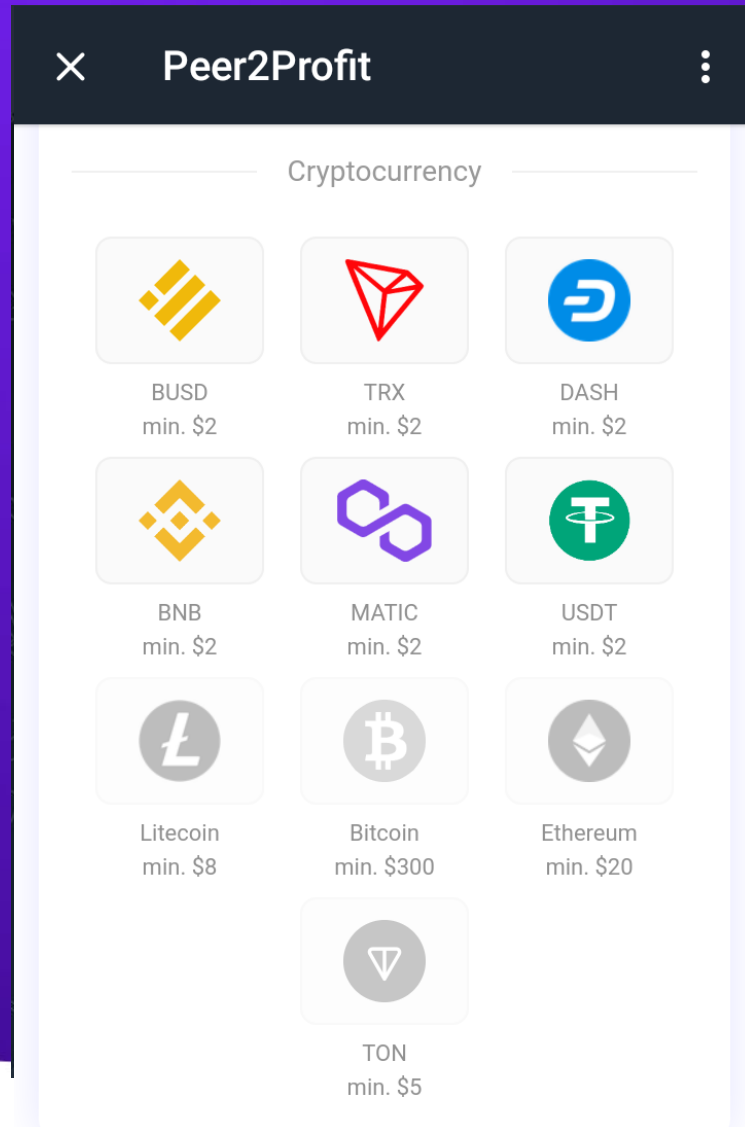

Choose your country and select your withdrawal method. Each method has **its own minium withdrawal amount**.

If you did not reach the min. withdrawal, the payment method will appear grey.

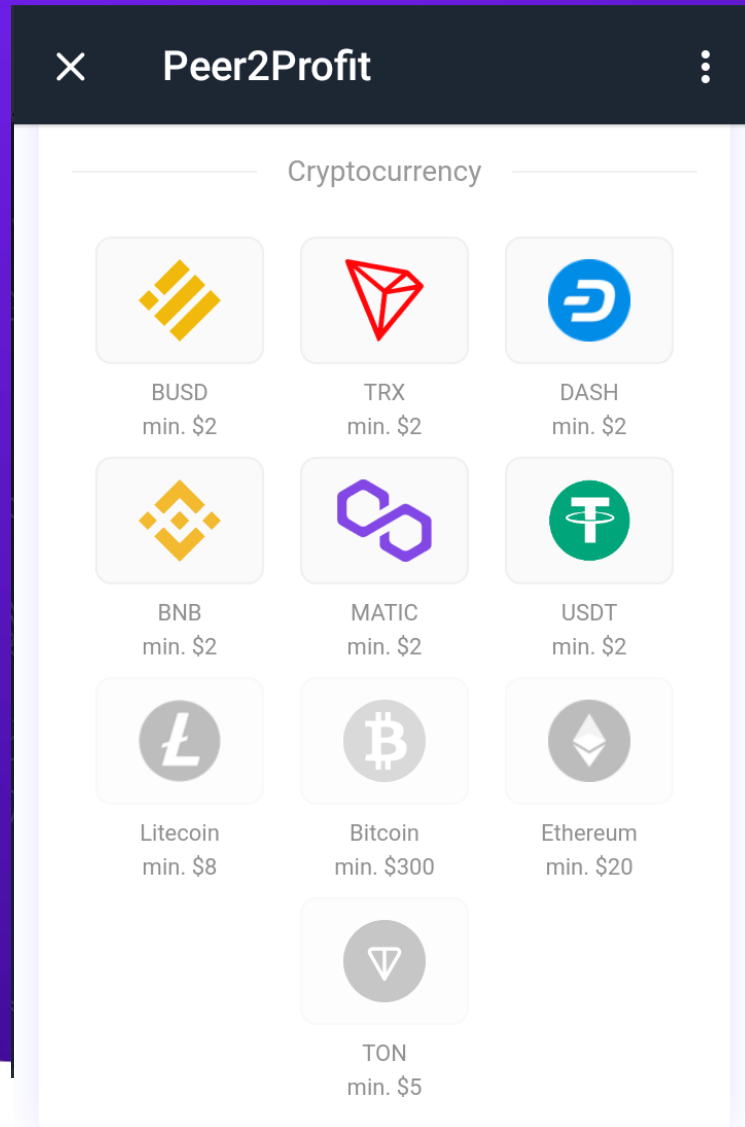

Withdrawal

Pay particular attention to the following points:

- Check your crypto address before requesting a withdrawal.

Withdrawal

Pay particular attention to the following points:

- Check that your wallet can receive **small payments**. If you do not have such a wallet, register a **free** account on faucetpay ([click here](#)), then
 - Go to the "Wallet" section of faucetpay
 - Choose the crypto you want to receive from peer2profit
 - Click on "Deposit"
 - Copy the wallet address
 - Paste it on Peer2Profit and withdraw your funds
